

Our Values

The Outdoors

We believe being outdoors is essential for everyone's physical and mental wellbeing and that being outdoors enriches our lives. Path Hill has a varied and beautiful outdoor environment which provides our students with opportunities to learn about and reconnect with nature, experience adventure and find peace in a busy world. When appropriate we will create opportunities for our students to experience and explore opportunities beyond our site in a variety of different settings.

Personal Growth

Everybody who spends time at Path Hill, whether as a student, member of staff or visitor, should leave with an enhanced sense of purpose, hope and self. We will endeavour to ensure that the opportunities at Path Hill for fulfilment, new experiences and learning can be carried forward into the future.

Community

Path Hill will provide opportunities for students to come together, socialise and understand collective responsibility. We will nurture a 'family feel' within Path Hill and work in partnership with our local community, whether on the Hardwick Estate or beyond, sharing and giving back where possible.

Sustainability

Preparing our students for their future is core to what we do.

Path Hill will support all our students to understand why and how they will need to adapt to changing circumstances in the future. We will become a centre of excellence for sustainable living, giving our students a deeper understanding about how nature works and their role in reducing our impact for the benefit of all.

Inclusion

Path Hill Outdoors is an accepting environment committed to equality, recognising diversity and respecting differences. Our work embodies this outlook and we strive to encourage everyone to embrace and represent these commitments.

Path Hill is a not-for-profit business managed to ensure its future operation. Any surplus funds generated are used for the benefit of our students and staff and enable us to continue to be innovative and responsive to needs.
